## LABOR FACES ITS GREATEST CRISIS

A. F. of L. DECLARES WAR ON OPEN SHOP.

## LOST 172,212 MEMBERS

Annual Report Calls for Peace in the Ranks of Unions—Declares for Disarmament.

Denver, Col., June 13.—The American Federation of Labor lost 172,212 of its 4,978,740 members during the past year and the bitter strife with capital as manifested by strikes cost organized labor within its ranks a sum totalling more than \$8,462,175, according to the annual report of the executive council submitted to the forty-first convention of the great labor body, which opened its sessions here today confronted by the gravest crisis in its history.

Only once before has labor faced a crisis anything like it. That was seventeen years ago, when it met in this same city in the wake of the panic of '93.

The loss in membership is laid to the great number of unemployed, which is estimated at 5,000,000. A sum approximating nearly \$1,000,000, was spent on unemployment benefits in contrast to \$65,926 reported expended last year.

Strikes cost the coal miners alone \$3,000,000, the building trade more than \$1,000,000, the iron moulders \$956,031.31, the cigarmakers \$910,970.11, and the machinists nearly \$850,000. Only partial strike statistics are reported and there is no definite information as to the number of workers out. These incomplete figures show 1,635 strikes during the year against 1,255 last year.

"Our movement must now rally to a militant offense against the powers that have sought our ruin," the report says with a note of warning.

**Pernicious Individual Contracts.**  
"The American trade union movement has gone through a year of unexampled struggle and difficulty.

"The enemies of labor and of human progress have assailed us from every side. The movement for the reduction of wages, the movement masquerading under the fictitious slogan of the 'open shop,' and perhaps even more sinister of all, the revival as a part of the general anti-labor campaign of the vicious, enslaving individual contract by which workers are bound to their employers in unwilling servitude have been massed and concentrated against the most potential voluntary movement of wage earners of our country. We must always expect and tolerate constructive criticism, but we cannot and must not fold our arms under the fire of wantonly destructive movements directed by avarice and greed."

Construction of public works by the government are demanded for the immediate relief of the unemployed as provided for in bills now before Congress.

"A national commission to investigate the present railroad crisis and to make recommendations to Congress for action with a membership chosen proportionately from the public, the railroad security holders and the railroad unions," is recommended in the report. ## MENS BIBLE CLASS SETS NEW ATTENDANCE RECORD

Maryville Sikhs Have 307 Present and Hand Clarinda Rivals Severe Drubbing

Had seventeen of thirty-two men who were late at the Men's Bible Class at the Christian church yesterday were there on time, the class would have reached its goal of 1,000 points for the day. There were 307 men present, 275 of them on time and 47 new members, totalling 983 points.

The class led their Clarinda rivals for the day by 292 points. The Iowans had 222 present, 187 on time and 30 new members, for a total of 691 points.

Without allowing for the error made in the Clarinda report a week ago, the total score now stands: Maryville 4,203, Clarinda 3,665. The contest and the first Sunday in July. The losers will then entertain the winners with a banquet. Apparently the men who meet here in the big tent each Sunday cannot be cheated out of the "feed," and plans are being made to invade the Page County capital 500 strong.

The enrollment of the class here is now more than 300, almost 350. The attendance in the entire Sunday school yesterday was 692.

## BLAND-MILLER TEAM WINS MIXED DOUBLES TITLE

Defeats Mapel-Condon Combination in Three Fast Sets on College Courts.

Earl Bland and Helen Miller won the mixed doubles tennis at the college Saturday afternoon by defeating William Mapel and Ora May Condon 2-6 6-3 6-4. Fast playing was exhibited on both sides.

The teams were about evenly matched but Mapel and Miss Condon became a little over-confident after winning the first set and did not play the close, accurate tennis that has been characteristic of them all through the tournament. After dropping the first set, Bland and Miss Miller settled down to a steady game, returning many hard drives and placing shots with deadly accuracy.

This is the first of a series of tournaments to be played at the college this summer. The Bland-Miller combination will defend their title as mixed doubles champions in a later tournament.

Mr. and Mrs. O. E. Pence of Clearmont were in Maryville Saturday.

Mr. and Mrs. Rolla Howden of Skidmore were in Maryville Saturday.

## MEET TO DISCUSS INSURANCE RATES

ENGINEERS OF MISSOURI INSPECTION BUREAU ARRIVE.

## INCREASES NOT GENERAL

Higher Rates are Based on Individual Hazards, Visitors Say—Meeting at Bainum Hotel.

Members of the Chamber of Commerce, city officials and property owners will meet at the Bainum Hotel tonight with J. O. Gill and F. L. Bock, engineers representing the Missouri Inspection Bureau, who will explain recent increases in insurance rates on buildings here. The discussion will follow the regular Monday night luncheon of the Chamber of Commerce.

"There has been no general increase in rates here," said Mr. Gill this afternoon. "Higher rates in individual cases have been based on individual hazards. Every one of the increases has its explanation in a greater risk to the insuring companies."

"It is not true that rates in general are higher in Maryville than in nearby towns that do not have water works or modern fire protection. I could pick out individual instances where rates here are higher than they are in St. Louis, but in general rates at St. Louis are lower. The same holds true as regards Maryville and the smaller towns. Except in individual cases where hazards are greater, rates are lower here because of better fire protection."

Mr. Bock was in Maryville before the election at which bonds were voted for improvement of the water works. He conferred with members of the Chamber of Commerce at that time.

"I told the members of the Chamber at that time what would be necessary to raise Maryville's rating, and it was decided that it would be economical to make the changes. Without the improvements that were made, it would have been necessary to lower the town's rating."

"As I told property owners at that time, more can be done to reduce insurance rates by eliminating individual hazards than by attempting to raise the class of the city as a whole. Mr. Gill will confer with individual property owners, advising them what it is necessary for them to do to secure more favorable rating."

"The Missouri Inspection Bureau is a private enterprise, but we represent the insurance companies only in a way. We are the umpires, the arbitrators, who attempt to apply certain technical standards in a common sense manner. The rates fixed by the bureau are approved by the state insurance department."

"We are here to give information and make any explanations that we can. We want to find out what the property owners want and to advise with them," he concluded.

## IRISH LABOR LEADERS TO ASK REBUKE FOR COMBERS

Friends of Irish Republic Claim A. F. of L. President Will Be Made to "Bow to the Sinn Féin."

Denver, June 13.—The forty-first annual convention of the American Federation of Labor opened here today. The opposition faction is planning a rebuke on the leadership of Samuel Gompers. Those who charge that the veteran labor leader does not favor America's interference in sympathy with the Irish Republic are boasting that he, "will be made to bow to the Sinn Féin."

## SIMS REPUDIATES ANTI-IRISH SPEECH

REPLY TO DEPARTMENT IS COMPLETE DISAVOWAL.

## DELAY PROVOKES DENBY

Tardiness in Answering Is Regarded More Serious Than the Speech Punishment Probably Light

Washington, June 13.—The reply of Real Admiral Sims to Secretary Denby constitutes virtually a complete disavowal of the statements attributed to him in his London speech, and has made it practically certain that no severe punishment will be meted out to him when he returns to report in person to the Secretary of the Navy. It is said today in high naval circles.

Sims claims that he had been misquoted and that the content of his speech was garbled, misleading and wrong. However, he will be called upon to explain to the Secretary why he delayed four days in offering an explanation which Secretary Denby requested without delay. His tardiness to this request, for which no explanation was received, is regarded in Navy circles as constituting an offense more grave than the utterances which first got him into his present difficulties.

Washington, June 13.—Remarks attributed to him in press reports of his recent address before the English-speaking Union in London, in which he criticized activities of Sinn Féin sympathizers in this country, were not correctly quoted, and were misleading, Admiral William S. Sims declared in a cablegram received today by Secretary Denby.

"Statements that were attributed to me," said the message, "were not correctly quoted. Context misleading and garbled. Report of statements is incorrect and inferentially wrong. Statement actually made was substantially the same as repeatedly made in public in America and in my book, 'The Victory at Sea,' and in public address at meeting held for increasing good relations between the English-speaking people."

Secretary Denby would not comment on the admiral's message. In view of the fact that Mr. Denby yesterday revoked the remainder of the officer's leave of absence and ordered him to report at once to the United States to report in person at the navy department, it was indicated that no further steps would be taken in the case until Admiral Sims's return. It then will be decided, it was said, whether Secretary Denby would press his inquiry into the matter.

Admiral Sims's references in his cablegram to his speeches in this country recalled the addresses he made in Boston last winter in which he assailed Sinn Féin sympathizers in this country. Joseph Daniels, then Secretary, was bombarded with telegrams and letters demanding that disciplinary action be taken against the officer, but no such steps were taken.

Mr. and Mrs. Dick Howell living near Parnell was a visitor in Maryville Saturday.

Levi Barton of Otsburg was in Maryville Saturday.

### MISSOURI "OLD GUARD" GETS IN AT PIE COUNTER

G. O. P. Faction Denounced as Grifters in Recent Scandal Crowds the Righteous Ones Out

Jefferson City, June 13.—The Republican state organization aligned with Governor Hyde, now in control of the state committee, has practically abandoned the fight to obtain a share of the federal patronage under the Harding administration.

Information received here from Washington recently is that the Babler-Morse "old guard" politicians will be given the preference in the distribution of federal "plums." The same influences that put over C. C. Madison for district attorney at Kansas City, it is understood, have the right of way in Washington.

Dr. E. R. Clements, Republican state chairman, is quoted as saying he holds out little hope for substantial recognition of the state organization, which put Missouri in the Republican ranks last year.

After the election last November and the repeated repudiation of the Babler-Morse clique, it was believed the state committee or "state crowd" would be given the preference in federal patronage. Later it was reported that a "fifty-fifty" division would be made between the "old guard" and the new organization. But now, it is almost generally believed here, the federal appointments will be practically 100 per cent "old guard," so the anti-boss fight begun last year is to go on.

### VILAS POPE PUEBLO SAYS TELLS VISITORS "STAY OUT"

Refused Entrance to Flooded City to Visit Friends Who Formerly Lived Here.

Pueblo does not want sightseers invading the city, according to Vilas Pope, who returned Saturday night from the flooded area. Guards are stationed at all inlets to the city, and only those who have business are allowed to enter, he says.

Pope was visiting friends in Brush, Colo., when the flood occurred. With Ferris Byrnes, he went to Pueblo last Monday. The train was stopped by washouts about three miles from Pueblo and they tramped the rest of the way to the outskirts of the city, where they were stopped by guards. They were unable to enter the business section of the city, but saw much evidence of the flood's damage in the outlying districts.

Pope told of the shooting of Ernest E. Withers, Pueblo water commissioner and business man, by one of the guards.

"Withers was returning from the water plant," Pope said. "His car was going fast, and he had not stopped when the second command came. The guard then fired."

Pope intended to visit in Pueblo with Mr. and Mrs. Leo Butler and Charles Campbell, former Maryville people, who came through the flood

safely. When refused entrance he returned to Brush and then to Maryville.

Byrnes went on to Phillips, S. Dak., where he will visit his father.

### HARDIN COLLEGE MAKES CHANGE OF PRESIDENTS

Missouri Exile Succeeds Missourian as Head of Prominent Missouri College for Young Women.

After twenty-six years of successful service with Hardin College, Mexico, Mo., Dr. John W. Millon, a native of Northwest Missouri, resigns to accept the presidency of Des Moines University, which comprises the consolidation of practically all the Baptist schools of Iowa. During his long tenure of service at Hardin College, over 4,000 girls have passed through her halls. Educational standards have been maintained unflinchingly high, bringing to Hardin College the first award of standardization given to any college for women in Missouri.

President S. J. Vaughn, who takes up his full duties of office this month, comes to Hardin College directly from the faculty of the University of Illinois, where he was head of the Department of Industrial Education in the College of Education.

However, Missouri is his native state. He was born in Southwest Missouri

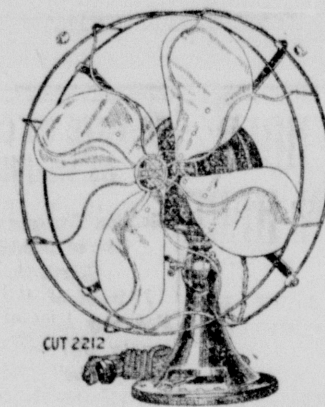

and received his A. B. from Drury College, Springfield, Mo. He was for several years superintendent of schools in Southwest Missouri and for four years was Principal of Dadeville Academy.

For the last fourteen years, President Vaughn has been engaged in educational work in the Northern Illinois Teachers' College and the State University. During this period he has been president of the two national associations of teachers, the author of text books in Vocational Education, and since 1914 has been editor of Industrial Arts Magazine.

During the World War he served in the U. S. army as Educational Adviser at General Hospital No. 2, Fort McHenry, and later as Editor of "Carry On" published by the Surgeon General's Office, Washington, in the interest of the re-education of disabled service men.

Hardin College awarded at the last commencement the largest number of diplomas and certificates ever awarded at any graduation time. And the advance registration of students for next year is the largest in the history of the College for this time of the year, being more than double the number this time last year.

Mr. and Mrs. Bert Lewis, son, B. K. Jr., and daughter, Helen Clare were in Maryville yesterday.

labor. It touches on the danger of war with Japan and expresses confidence that the Japanese workers are as anxious as American labor for friendly relations. The report puts the Federation, on record against the proposed Department of Public Welfare sponsored by President Harding, declaring it will weaken the Department of Labor. It announces labor's opposition to a sales tax or other new taxes.

Speaking of labor's enemies, the report declares the "open shop" campaign has gained no headway. "It is true the organized employers are still making strenuous efforts to destroy trade unionism and that in many directions the campaign to reduce wages continues," says the report. "What is equally true is that these movements continue with constantly decreasing vigor and effect and that their momentum of three months ago has been dissipated."

The report demands labor call a halt on disunion within its ranks.

"When labor is confronted by an enemy such as it has never been called upon to meet and overcome in the past two decades, it seems to us," says the executive council in the report, "that we should all for ourselves as well as jointly call a halt at least to the unnecessary and unwarranted jurisdictional claims and conflicts and devote ourselves wholeheartedly to the work in hand."

The report urges co-operative labor banks, credit unions and other co-operative enterprises as a curb to profiteering.

"To stimulate rapid development of co-operatives the Federal Loan Act should be extended so as to give credit to properly organized co-operatives just as credit is now given to individual farmers," says the report. "Co-operation is no less vital and worthy of support than are the railroads, which were given hundreds of millions of dollars and an area of land equal to New England to facilitate their establishment."

**Recommend Disarmament**  
"We repeat and emphasize the demand of organized labor that control of credit capital be taken from the hands of private financiers and placed in the hands of a public agency to be administered by voluntary and co-operative methods."

The report recommends that the convention urge the President to take the initiative or co-operate with other nations to bring about universal disarmament.

"The working people, the masses in the world population, can end wars if they have the independence to think and to give their convictions reality by daring to do," says the report.

The report reiterates the Federation stand for Japanese exclusion and land laws, charging that a national anti-labor organization is engaged in a campaign to amend the Chinese exclusion act to permit importation of Chinese
